Why us?

At K Beauty Academy, **we are committed to elevating beauty standards** and ensuring every student receives the highest quality education. Our lead educator, Karis, has **over eight years of industry experience** and has been teaching for the past five years. She founded the academy with one goal in mind—to raise the standard of beauty training in her local area. What started as a small academy quickly gained recognition, **attracting students from London and even Dublin**, all eager to learn from her expertise.

Karis initially taught small group classes of four students but soon discovered that 1-2-1 training allowed her to provide a more tailored learning experience. This shift resulted in a remarkable improvement in her students' work, and now, with **over 150 successful students**, her reputation speaks for itself.

Many **students return for additional courses**, a testament to the academy's high-quality training and supportive learning environment.

What truly sets us apart is our **lifetime support**. We understand that starting a career in beauty can be daunting, and we want to ensure you never feel lost. Karis is dedicated to guiding you every step of the way, long after you've completed your training.

At our cosy, home-based salon, we offer a chilled, relaxed, and non-judgmental space where you can **learn at your own pace**. Our courses are **packed with valuable industry knowledge**, so if you're planning to train with us, be sure to bring a pen—you'll leave with more than just a certificate; you'll leave with the skills and confidence to excel in your career.

Still Need Reassurance?

Here Are Some Unique Benefits We Offer at Our Academy!

1.

ABT Accredited

Gain a recognised qualification to start your career with confidence.

2.

Regularly Updated Manuals

Our training materials are updated every 6 months to keep up with industry trends.

3.

Lifetime Support

We don't just train you and send you off, we offer ongoing support throughout your career.

4.

1-2-1 Focused Training

Get personalised guidance tailored to your learning style.

5.

Live Model Practice

Perfect your skills with hands-on experience on real models in a supportive setting.

6.

Lunch & Drinks Included

Stay refreshed and focused with complimentary lunch and drinks throughout the day.
